External Research Project at [REDACTED]  
"European Satellites National Accounts" (CONFIDENTIAL)

Description: The project "European Satellites National Accounts" is a long range endeavor, programmed in successive phases involving detailed analysis of the economic structure of each of the Satellite countries, except for East Germany and Albania, on a national income accounting basis.

Current Status: Phase I was completed in December 1957, and covered the 1947 national income and project accounts for Poland and the 1947-48 accounts for Czechoslovakia. Phase II was completed in December 1958 and covered the 1954-56 accounts for Czechoslovakia, and the 1955 accounts for Hungary. Phase III is currently in progress and covers the updating and tracing of trends in Poland, Czechoslovakia, and Hungary, and in addition will provide information on the National accounts of Rumania and Bulgaria. Phase III is scheduled for completion in December 1959. Phase IV will continue studies of the postwar structure and trends in Economic activity for Czechoslovakia, Hungary, Poland, and Bulgaria. It will be completed in December 1960.
